

Transcription factor binding	17
Histone binding	17
Amide binding	17
Cell leading edge	17
Nuclear body	18
Perinuclear region of cytoplasm	19
Ubiquitin ligase complex	20
Protein heterodimerization activity	21
Nucleoside–triphosphatase regulator activity	21
Atp binding	22
Protein kinase binding	22
Chromatin binding	23
Cytoplasmic vesicle part	23
Cell surface	24
Gtpase binding	25
Enzyme activator activity	30
Ubiquitin–protein transferase activity	32

Ontology
  Cellular component
  Molecular function
